## Configure a PPPoE connection on your Windows 8

1.) Click the **"Desktop"** window in the lower left corner.

2.) Click the "Windows Explorer" icon in the bottom left corner of the Taskbar.

A new window opens.

Right-click "Network" and click "Properties"

Expand		8
Open in new window Pin to Start	vork > v	C Search Network 🖌
Map network drive Disconnect network drive	Home-PC	
Delete		
Properties	-	
2		
1 item		855

3.) The **Network and Sharing Center** window opens. Click **"Set up a new connection or network"** 

4.) The **Set Up a Connection or Network** window opens. Choose **"Connect to the Internet"** and click **"Next"** 

5.) If you are already connected to the Internet, the next window will let you know that you are online already. If this is the case then continue and click **"Set up a new connection anyway"**.

You a	re already connected to the Internet		
	<b>I</b>	- 🥥	
	Browse the Internet now	_	
	Set up a new connection anyway		

6.) In the next window, it will ask you how do you want to connect? Click **"Broadband** (**PPPoE)".** 

7.) It now asks you for a username and password. In order to establish a connection to use your Internet service, you need to use the username and password that CIT will provide for you.

Type the **username** Type the **password** Type a **Connection name** that will easily help you identify it later. We recommend: **IAUPR Apartments** 

Make sure the **"Allow other people to use this connection"** option is checked if you want other users on this computer to see the connection and connect to it. Click **"Connect"** 

er name:	[Name your ISP gave you]
Password:	[Password your ISP gave you]
	Show characters
	Remember this password
Connection name:	Broadband Connection
🌍 🗹 Allow other peopl	e to use this connection

You can now use this connection to access the Internet using your DSL service.

You can find the new **Broadband Connection** in the "**Network Connections**" window. If you right-click the "**Broadband Connection** click "**Create Shortcut**" to make a shortcut on your desktop.
