1.) Click the **"Start Icon"** located at the bottom left corner of your Taskbar.

Right-click "Network" and click "Properties".

2.) The Network and Sharing Center window opens.

Click "Set up a connection or network".

3.) The **Set up a connection or network** window opens up, choose **"Connect to the Internet"** and click **"Next"**.

🌀 🔮 Set ı	up a connection or network	
Choos	e a connection option	
	Connect to the Internet Set up a wireless, broadband, or dial-up connection to the Internet.	
ø	Set up a wireless router or access point Set up a new wireless network for your home or small business.	
	Set up a dial-up connection Connect through a dial-up connection to the Internet.	
<b>]</b> 0	Connect to a workplace Set up a dial-up or VPN connection to your workplace.	
	Next	Cancel

4.) If your computer has Internet connection then you should receive this window below. Click "Set up a new connection anyway" to continue configuring a Windows Vista PPPoE Internet connection.

5.) In the next window, click "Broadband (PPPoE)".

_			- • ×
Θ	ġ	Connect to the Internet	
	Н	low do you want to connect?	
		Broadband (PPPoE) Connect using DSL or cable that requires a user name and password.	
		Show connection options that this computer is not set up to use <u>Help me choose</u>	
			Cancel

6.) In the next window, you will type in the **Username** and **Password** that your ISP provided you wit.

Under **"Connection Name"**, you should type a name for the PPPoE connection that you can identify easily. We recommend: **IAUPR Apartments** 

Click to add a check to "Allow other people to use this connection". (this setting will allow any other user on this computer to use this PPPoE connection.)

Click "Connect"

0	👰 Connect to the Internet			
(	Type the information			
	User name:	[Name your ISP gave you]		
	Password:	[Password your ISP gave you]		
		Show characters		
		Remember this password		
ļ	Connection name:	Broadband Connection		
Allow other people to use this connection This option allows anyone with access to this computer to use this connection. <u>I don't have an ISP</u>				
		Connect	Cancel	

## 7.) An attempt to connect will initiate.

🕞 🧟 Connect to the Internet	
Connecting to Broadband Connection	
in the second se	
Connecting through WAN Miniport (PPPOE)	
Skip	Cancel

8.) You can find the new PPPoE connection icon under

- "Start"

- "Control Panel"
- Under "Network and Internet" click "View network status and tasks"
- Click "Manage Network Connections" on the left side of the window

To create a shortcut to the desktop:

- Right-Click the "Broadband Connection" and click "Create Shortcut"
