BENEFITS:
- Enhance your career through unique Army Programs
- Earn an extra income
- Excellent retirement plan
- Help lead Army Reserve Optometry into the 21st Century

Pursue a career like no other in Optometry

Providing direct patient care to Army personnel and their families will be your top priority as a member of the Army Optometry Health Care Team. You’ll be involved in detecting, preventing, diagnosing, treating and managing ocular-related injuries, diseases and visual dysfunction. Army Optometrists can pursue careers in clinical practice, teaching, aeromedical research, residency training, vision conversation and readiness, optical fabrication, laboratory management and general management and administration.
